The University Coat of Arms

In June 1994, His Excellency the Right Honourable Ramon John Hnatyshyn, Governor General of Canada, presented the University of Alberta with its Coat of Arms. The full Coat of Arms is displayed at ceremonial occasions such as Convocation, and is used by the Chancellor, the titular head of the University.

On the shield is a representation of the topography of Alberta rendered in the colors of the University. At the base is a prairie wheat field symbolizing Alberta's agricultural industry. The wavy gold line above suggests the hills and rivers of Alberta and, in particular, the setting of the University campus. The top of the shield is in gold and separated from the rest of the shield by a line suggesting the Rocky Mountains. The book of learning dominates the design.

On the crest is a Grand-Duc d'Amérique, or Great Horned Owl, the provincial bird and an accepted symbol of knowledge. The Pronghorn, taken from the Provincial Coat of Arms, and the golden bear, mascot of the University support the shield. Both wear collars of the University colors, as does the owl. At the base of the coat of arms is a grassy mound with wild roses, the floral emblem of Alberta with the University's motto: *Quaecumque vera* (“*Whatsoever things are true*”).

Please Note: The Jubilee Auditorium is a “smoke-free” facility.

The list of candidates for degrees, diplomas, and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information presented is current as of the program printing deadline.

The assistance of the Music Performance Trust Fund and the Edmonton Musicians' Association is gratefully acknowledged.

Photographs may be taken during the ceremony, but we ask that photographers do not approach the stage area and ensure that aisles and stairways are kept clear.

Greetings to the Graduates

The pomp and ceremony of convocation reflects a long tradition of celebrating achievement at university. Each of you devoted years of study and hard work to accomplish your goals and today your proud families, friends and teachers all recognize and salute your success.

Over one hundred years ago, our founders promised that the university would not be isolated from the world but would share its knowledge and learning with the community to serve the public good. Today you join more than 275,000 University of Alberta alumni worldwide who are fulfilling that promise of building a better world through education.

Learning to live in peace and prosperity will require leaders and citizens with vision, commitment and drive. We hope the knowledge and skills you have acquired during your university years will help you become those good citizens of the world and achieve your dreams.

Congratulations. Enjoy your success and your day of celebration.

Linda Hughes, BA, LLD (Hon)
Chancellor

Congratulations to the University of Alberta's class of 2012! Today you become a proud graduate of the University of Alberta, one of more than 275,000 alumni worldwide. Enjoy today's celebration of your accomplishments and the successful outcome of years of study, intellectual growth and personal discovery.

Wherever the next step of your journey may take you, your connection to your alma mater will endure. Throughout your life, remember and be guided by the values we hold dear at this institution. When our first president, Henry Marshall Tory, founded this university, he upheld two ideals: first, that the modern university should be for the "uplifting of the whole people," and second, that we should pursue whatsoever things are true: quaecumque vera. With these two ideals as your beacon, I urge you to follow the lead of thousands of U of A alumni, and with truth and integrity, use your gifts to uplift, build and serve society.

Indira Samarasekera, O.C.
President and Vice-Chancellor

On behalf of the Government of Alberta, it is my pleasure to extend my warmest congratulations to the University of Alberta's 2012 graduating class.

Through your skill, focus and creativity, you have reached one of the most important milestones in your life.

You have successfully graduated from a world-class university with a strong legacy of producing leaders in everything from the arts and sciences to business and education.

As you move forward on your life's journey and pursue your goals and dreams, I encourage you to continue to demonstrate the values you have developed at university-integrity, leadership and excellence-in everything you do.

Our province was built by risk-takers and innovators. I hope that you add to our heritage of success in entrepreneurship, innovation and creativity.

I wish you great success and best wishes in your future endeavours.

Alison M. Redford, QC
Premier of Alberta

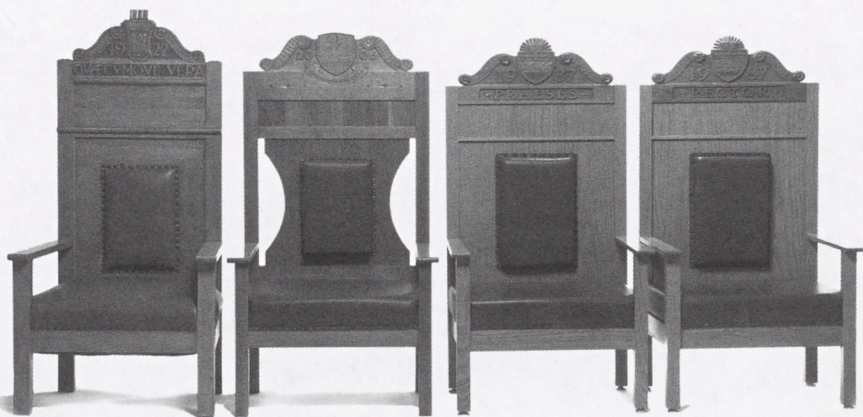

Our Traditions

The University Ceremonial Chairs

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto *Quaecumque Vera* together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

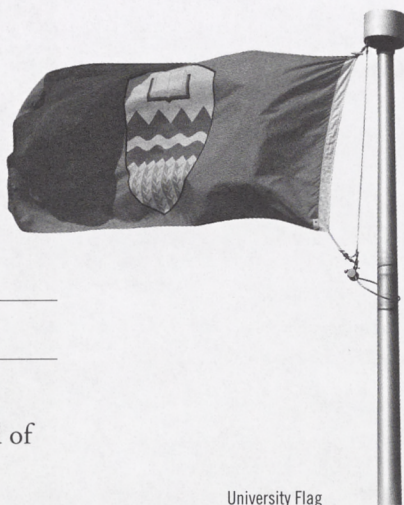

In 2006, a fourth chair was donated in memory and honor of Lois Elsa Hole, beloved Chancellor (1998 – 2000) and Lieutenant Governor (2000 – 2005), by Earl Evaniew, Sandra Kereliuk and their daughter Jennifer. This chair becomes part of the seating arrangements on stage, when the Lieutenant Governor or other high profile dignitaries attend the convocation ceremonies.

University Ceremonial Chairs

The University Flag

The University Flag has a gold background and bears the shield of the Coat of Arms.

University Flag

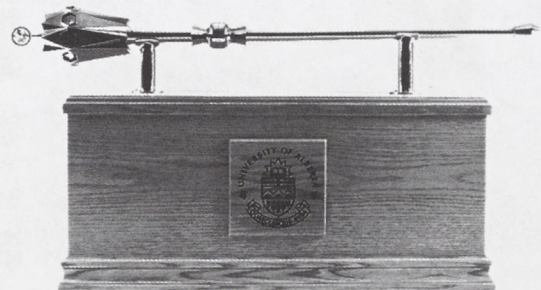

The University Mace

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr. Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 – 1970. It was presented by his son, Michael Galbraith, on behalf of his father on 26 May 1970.

Among its elements are: the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto encircles the staff.

The ceremonial stand for the Mace was donated in 1987 as a memorial gift by family and friends of Dr. Charles Malcolm Macleod, Chair of the Board of Governors 1950 – 1966.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power—but the power of knowledge and the importance of the University in the community.

The University of Alberta Cheer Song

*Ring out a cheer for our Alberta
A song of praise to Varsity.
For the splendour of our mountains
Our prairies green and gold.
Ranked beneath whose glowing colours,
Thy legions march enrolled.
Our memories will live forever
Beloved University.
We will fight for thee and cheer
And ever hold thine honour dear.
Our Alma Mater U of A
Green and gold! Quaecumque vera!
Guide us through each coming era,
Guide us on through battle gory
To a new and greater glory.*

Convocation

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval magna congregatio of all Faculties. It is led by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods and caps declare, in their various designs and colors, the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to her and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the universitas magistrorum, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. The words "I admit you" and

the placing of the students' hands within the hands of the Chancellor and her associates, bind the students in the appropriate degree to the universitas magistrorum. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

Academic dress at the University of Alberta generally follows the tradition of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. See Academic Dress on page 80 for a detailed description of ceremonial colors.

Conferring of Degrees

The Presentation

The Senior Dean presents the candidates for degrees with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the uplifting of the whole people; to inspire the human spirit; for all who believe, to serve your God; and to pursue more steadfastly whatsoever things are true."

The graduates remain in their places.

Honorary Degree Recipient

CONGRATULATIONS

Chantal Petitclerc

Chantal Petitclerc was born in Saint-Marc-des-Carrières, Québec. At the age of 13, she lost the use of her legs following an accident. Her high school physical education teacher, Gaston Jacques, convinced her to take up swimming in order to develop her strength and stamina. This would have a decisive impact on her life – for this was her first contact with sport and training.

Four years later, she would discover wheelchair athletics, paving the way for a long and very successful career which would take her to the Barcelona Games in 1992, and ultimately, to the Beijing Games in 2008.

Ms. Petitclerc returned from the 2008 Beijing Paralympic Games with 5 gold medals, 2 new world records and 1 new Paralympic record, making her the most celebrated track athlete in history as well as the only Canadian athlete to have won gold medals at the Olympics, Paralympics and Commonwealth Games.

She competed in five Paralympic Games – Barcelona, Atlanta, Sydney, Athens and Beijing – and holds a total of five Paralympic records and five world records.

One of only 165 living Companions of the Order of Canada, she has been recognized with a Laureus World Sports Award, the Lou Marsh Trophy as Canadian athlete of the year and a star on Canada's Walk of Fame. An International Paralympic Committee Female athlete of the year and La Presse Sports personality of the year, she also received the United States Sports Academy's (USSA) Juan Antonio Samaranch IOC Disabled Athlete Award in 2010.

While the Beijing Games would be the last time she would participate in track competitions, Ms. Petitclerc nevertheless continues to train as she intends to take part in road marathons over the next few years.

A highly sought after speaker, she participates in projects with various Paralympic athletics and sports organizations, in addition to working as a spokesperson for Défi Sportif in Montréal and as an ambassador for the international Right to Play organization. Right to Play is a humanitarian organization that uses sport programs to improve health, develop life skills and foster peace for children and communities around the world.

Ms. Petitclerc's determination, pursuit of excellence and commitment to social change are an inspiring example of the power and potential of the human spirit.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms. Chantal Petitclerc:

William A. Baillie-Grohman. *Sport in Art: An Iconography of Sport Illustrating the Field Sports of Europe and America from the Fifteenth to the End of the Eighteenth Century*. London: Simpkin, Marshall, Hamilton, Kent & Co., 1919.

This book is a celebration in pictures. It offers an examination of the historical development of sport, and its representation in art, through the reproduction of drawings, engravings, etchings, and woodcuts from the fifteenth through the eighteenth century. More important than the modest first edition, this second edition is profusely illustrated, containing two hundred and forty-three illustrations. Of particular interest is the final chapter, which focuses on early representations of the tragedy and triumph of mountaineering as a pastime.

Honorary Degree Recipient

CONGRATULATIONS

Donald Bruce Dingwell

Born in Corner Brook, Newfoundland, Dr. Dingwell received his B.Sc. in Geology/Geophysics from Memorial University and his Ph.D. in Geology at the University of Alberta.

Following two years as a Carnegie Research Fellow at the Geophysical Laboratory of the Carnegie Institution of Washington and one on the faculty of the University of Toronto, he was recruited to Germany as assistant to the director of a newly founded research institute, the Bavarian Geo-institute and obtained his Venia Legendi in Geochemistry in 1992. In 2000, he was called to the Chair in Mineralogy and Petrology at Germany's leading research university, the Ludwig-Maximilians-University of Munich.

Dr. Dingwell's principal research interest is the physico-chemical description of molten rocks and their impact on volcanic systems. His innovative laboratory program in experimental physical volcanology generated a new field of scientific inquiry that has expanded our understanding of why volcanoes explode.

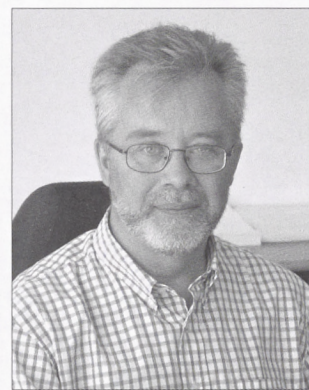

His research work has been supported by grants from the Carnegie Institution, NSERC, German Research Society (DFG), Alexander-von-Humboldt-Stiftung, European Commission, NATO, and several other research agencies as well as selected industries. His research has resulted in awards and fellowships with the German Mineralogical Society (DMG), German Research Society (DFG), Mineralogical Society of America (MSA), European Geosciences Union, American Geophysical Union (AGU) and the Institute of Scientific Information (ISI).

Dr. Dingwell is an elected member of the Royal Society of Canada as well as chair of the section of Earth and Cosmic Sciences of the Academia Europaea, Europe's academy of science, arts and letters. He has taught in five Universities, three countries and two languages, and has sponsored graduate students and postdoctoral fellows of a dozen different nationalities.

Highly active in the proliferation and support of science and science awareness within and beyond national and international societies, he is the President of the European Geoscience Union. He also has considerable experience in dealing with the media on issues of science.

Dr. Dingwell currently serves as the 3rd Secretary General of the European Research Council (ERC), Europe's flagship research funding organisation. At the ERC, where he serves as a liaison between commission, agency and scientific council, he has recently embarked on a global outreach campaign.

A strong advocate of interdisciplinarity, internationalisation and mobility of young researchers, Dr. Dingwell is an outstanding example of a leading academic who is deeply engaged with the broader community.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Donald Bruce Dingwell:

Thomas H. Dyer. *The Ruins of Pompeii: A Series of Eighteen Photographic Views with an Account of the Destruction of the City, and a Description of the Most Interesting Remains.* London: Bell and Daldy, 1867.

Mount Vesuvius is one of the best-known volcanoes in the world because it has shown its devastating power so clearly. This is the first edition of a photographic essay which, in 1867, would have offered many readers their first look at the ruins of Pompeii. This copy is in the publisher's original gold-stamped cloth binding, and it features pages with gilt edges and eighteen albumen photographic prints on plates. The preface emphasizes the importance of the photographs, and indicates that the text is updated from a popular book published by the Society for the Diffusion of Entertaining Knowledge (an odd error, since the correct name of the publisher is "Society for the Diffusion of Useful Knowledge").

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

CONGRATULATIONS

John Stanton

Founder of the Edmonton-based retailer, the Running Room, John M. Stanton was born in Tofield, Alberta. From his first job at the local IGA store, he worked his way to an executive vice-president role in the grocery industry. In the 1980s, a short fun run with his youngest son offered a wake-up call to improve his overall wellness and he began running, entering road races and marathons. Mr. Stanton has since competed in over 60 marathons, hundreds of road races and numerous triathlons, including the Hawaiian World Championship Ironman competition.

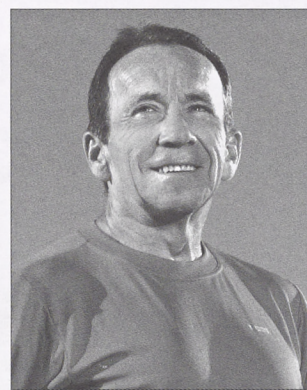

Noticing a gap in the market for people who needed the resources and support to find a way into, or back into, running and a healthier lifestyle, Mr. Stanton set up shop in an 80 square-foot space in 1984. The Running Room is now a 110-store, 1,300-employee leading retail operation in Canada and the United States. Recognized three times in the last five years as one of Canada's 50 best managed companies, the Running Room sponsors several hundred running and walking events each year, creating opportunities to fundraise millions of dollars for community and charitable initiatives.

A member of the Order of Canada and author of eight books on running and walking, Mr. Stanton is regularly featured in the National Post, Globe and Mail, Vancouver Province, and CBC programs across Canada. His pre-dawn runs would ultimately help close to a million people do everything from learning to run to finishing a marathon.

He is a recipient of the Dr. Harold N. Segall Award of Merit, recognizing his significant contribution to the promotion of cardiovascular health in Canadians. In 2010, the Canadian Medical Association awarded him the Award for Excellence in Health Promotion. In 2011, he was inducted into the Canadian Retail Hall of Fame.

A recipient of the Alberta Centennial Medal and the Queens Diamond Jubilee Medal, he is the Honorary Lieutenant-Colonel of the Loyal Edmonton Regiment 4th Battalion, Princess Patricia's Canadian Light Infantry. A member of the Alberta Business Hall of Fame, he and his family also received the Signature Family Award from the University of Alberta's Alberta Business Family Institute in 2011.

An outstanding entrepreneur with a keen interest in the well-being of Canadians from coast to coast, Mr. Stanton possesses a remarkable ability to inspire others and to build community.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. John Stanton:

The Games of the Xth Olympiad (Los Angeles 1932) Official Report. Los Angeles: Xth Olympiad Committee, 1933.

Ostensibly an official report, this beautiful book is a photographic celebration of the tenth Olympiad and of the spirit behind the games. In 1896, the founder of the modern Olympic Games, Baron Pierre de Coubertin expressed this spirit as follows: "The main issue in life is not the victory, but the fight; the essential is not to have won, but to have fought well. To spread these precepts is to pave the way for a more valiant humanity, stronger, and consequently more scrupulous and more generous." This is a very special copy because it contains, in an inside front pocket, an "all events" stadium pass for the 1932 Olympic Games.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. National Anthem

O Canada! Our home and native land!
True patriot love in all thy sons command.
Car ton bras sait porter l'épée, (With glowing hearts we see thee rise)
Il sait porter la croix! (The True North strong and free)
Ton histoire est une épopée (From far and wide, O Canada)
Des plus brillants exploits. (We stand on guard for thee)
God keep our land glorious and free!
O Canada! We stand on guard for thee.
O Canada! We stand on guard for thee.

Honorary Degree Recipient

CONGRATULATIONS

Garry Lindberg

Garry Martin Lindberg was born in Rimbey, Alberta, educated in Bluffton, and graduated from the University of Alberta with a B.Sc. in Engineering Physics (with distinction) in 1960. He completed graduate work at the University of Cambridge, England on an Athlone Fellowship and a National Research Council post-graduate scholarship, and received his Doctorate in Engineering Mechanics in 1964.

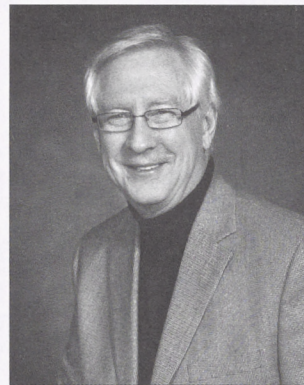

He then joined the National Aeronautical Establishment (NAE) of the National Research Council (NRC) to conduct research in engineering mechanics and aircraft structures. In 1974, Dr. Lindberg was appointed Project Manager of the CANADARM (Space Shuttle Attached Remote Manipulator System). He was responsible for negotiating and fulfilling all international obligations to the United States and for the negotiation and direction of all industrial contracts. First flown on the space shuttle Columbia in 1981, CANADARM met or exceeded NASA requirements and remains a hallmark of Canadian technology.

Dr. Lindberg was then appointed Director of the National Aeronautical Establishment with a mandate to pursue research and development in support of the aerospace industry. He provided research leadership and oversaw the operation of major aeronautical facilities such as wind tunnels and experimental aircraft. Under his direction, the CANADARM project was successfully completed and the Canadian Astronaut Program was launched.

In 1989, Dr. Lindberg was appointed Vice-President, Corporate Services and Research, of the newly created Canadian Space Agency and subsequently was named Vice-President, Research and Applications. He made major contributions to the policies and programs approved in the ten-year, \$2.7 billion Long Term Space Plan II. In 1996, he also chaired the Committee on Earth Observing Systems (CEOS), a committee of major space nations and international user agencies charged with coordinating the development and use of environmental and earth observing sensors and satellites. In 1997, he retired from full-time employment with the Public Service of Canada.

Dr. Lindberg has given many invited lectures, seminars and papers in Canada, the United States, Europe and Japan. He is the recipient of several awards including the NASA Public Service Award (in recognition of his leadership of the CANADARM project), the Eadie Medal of the Royal Society of Canada, the University of Alberta Distinguished Alumni Award and the Canada 125 Medal. He is a Fellow of both the Canadian Aeronautics and Space Institute and the Canadian Academy of Engineering.

Garry Lindberg's contributions to Canadian scientific and engineering excellence reflect a brilliant balance of vision and leadership.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Garry Lindberg:

*Richard Adams Locke. **The Moon Hoax; Or, a Discovery That the Moon Has a Vast Population of Human Beings. Illustrated with a View of the Moon, As Seen by Lord Rosse's Telescope.** New York: William Gowans, 1859.*

The New York Sun published a series of articles in the final week of August 1835 that caused a sensation around the world. It was declared that the eminent British astronomer, Sir John Herschel (1792–1871), had discovered life on the moon, which included fantastical creatures such as unicorns and bat-winged humanoids. This book is a reprint of the entire lunar narrative, by Richard Adams Locke, which was originally published over six days. Interest in the sensational story was intense, so it is no surprise that it is now remembered as one of history's most fascinating media hoaxes. This copy includes an unusual frontispiece of the moon purporting to be seen by Lord Rosse's telescope.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

CONGRATULATIONS

Shirley Marie Stinson

A pioneering figure in nursing scholarship, Shirley Marie Stinson has made transformative contributions to research, education and clinical practice.

Dr. Stinson earned her bachelor of science in Nursing from the University of Alberta in 1953 and embarked upon a career in public health nursing in communities surrounding Edmonton. She then decided to pursue more advanced education, earning a masters degree in nursing administration (MNA) in 1958. After further teaching and a term as a senior administrator at Toronto's Hospital for Sick Children, she pursued doctoral studies at Columbia University, earning a doctorate in education (EdD - Higher Education in Nursing) in 1969.

She returned to accept an appointment at the University of Alberta – at that time the only nurse with doctoral education in western Canada. Her initial appointment was a joint initiative: two-thirds with Nursing and one-third with the Division of Health Services Administration in the Faculty of Medicine. Dr. Stinson was designing and delivering courses in an interdisciplinary context well before this was common practice, teaching at the forefront of modern nursing and interdisciplinary health sciences.

A tireless and articulate policy advocate, Dr. Stinson played an integral role in the creation of the Alberta Foundation for Nursing Research (AFNR), a \$1 million endowment dedicated to nursing research, serving as inaugural chair from 1982 to 1988. As board member and president of the Canadian Nurses Association (CNA), she was the chief architect of "Operation Bootstrap," an interprovincial initiative designed to promote the development of PhD programs across Canada.

At the international level, Dr. Stinson organized and chaired the first International Nursing Research Conference in 1986, hosting over 700 delegates from 38 nations. In 1993, she served as co-chair for the first International Conference on Community Health Nursing Research. She has served as an advisor to nursing organizations across the globe, including the World Health Organization and the Pan-American Health Organization.

The first female and the first nurse to receive the federal designation of Senior Health Research Scientist, Dr. Stinson is an Officer of the Order of Canada and a member of the Alberta Order of Excellence.

Cited as one of the 100 Edmontonians of the Century and one of a Century of Outstanding University of Alberta Alumni, Shirley Stinson continues to be an inspiring mentor to generations of students and teachers.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Shirley Marie Stinson:

Charles Shrimpton. The Crimean War. The British Army and Miss Nightingale. Paris: A. & W. Galignani, 1864.

Florence Nightingale (1820–1910) is a nursing icon; her influence on the health care field initiated important reforms in nursing and midwifery, hospitals, and training. She established the Nightingale School where student nurses were introduced to a modern curriculum that included a hands-on apprenticeship, character training, ethical standards for patient care, and pioneering advice for health promotion and disease prevention. Her life's work was to advance the profession of nursing and to raise the status of nurses. When British troops were sent to the Crimea in 1854 to support Turkey in its dispute with Russia, Miss Nightingale followed with a contingent of nurses to provide care for the wounded. This book provides a detailed account of the exceptional service she rendered to the British Army.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Honorary Degree Recipient

CONGRATULATIONS

Julio J. Frenk

Julio J. Frenk is an eminent authority on global health and an influential agent for change operating at the crossroads of scholarship and practice.

Since January 2009, Dr. Frenk has served as Dean of the Faculty at the Harvard School of Public Health and T & G Angelopoulos Professor of Public Health and International Development, a joint appointment between the Harvard Kennedy School of Government and the Harvard School of Public Health.

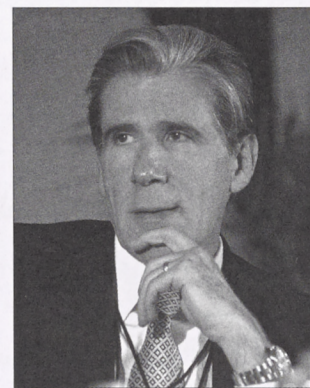

He was one of the lead co-authors of "Education of Health Professionals for the 21st Century," commissioned and published by The Lancet in 2010. The report makes a powerful case for the transformation of health sciences education. Dr. Frenk and his colleagues present evidence-based arguments in favour of reforms to address persistent inequities in health care and health education; to increase health security in the face of looming infectious, environmental and behavioural risks; and to promote interdisciplinary, inter-professional teaching and learning.

Dr. Frenk served as the Minister of Health of Mexico from 2000 to 2006, where he launched a major reform effort towards universal health insurance. Prior to that, he founded the National Institute of Public Health of Mexico, which has become a premier academic center in the developing world. He is past president of the Mexican Society for Quality in Health Care and former vice-president for Latin America of the American Public Health Association.

He has also held leadership positions at the Mexican Health Foundation, the World Health Organization, the Bill and Melinda Gates Foundation and the Carso Health Institute. In addition, he chairs the boards of the Institute for Health Metrics and Evaluation and the Partnership for Maternal, Newborn and Child Health.

Among other professional and scientific associations, Dr. Frenk is a member of the US Institute of Medicine, the American Academy of Arts and Sciences, and the National Academy of Medicine of Mexico. In September of 2008, he received the Clinton Global Citizen Award for changing "the way practitioners and policy makers across the world think about health."

Widely respected for his leadership and his profound concern with how scientific evidence may foster improvements in health systems and policy in societies around the world, Julio J. Frenk seeks to create positive change by building consensus. His record of accomplishment reflects an enduring commitment to the uplifting of the whole people.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. Julio J. Frenk:

A Tribute to Tommy Douglas. Toronto: New Democratic Party of Canada, 1971.

*Packed in a specially-made box are a series of items designed to celebrate the career of Canada's father of medicare, Tommy Douglas. The unusual collection includes an 8x10-inch glossy photograph of Douglas, a biographical essay, a pictorial biography, a book entitled *Essays on the Left: Essays in Honour of T.C. Douglas* (McClelland and Stewart, 1971), and a long-playing record which is accompanied by an introduction and a commentary by Pierre Berton.*

Honorary Degree Recipient

CONGRATULATIONS

Right Honourable Paul Martin

The Right Honourable Paul Martin was the twenty-first Prime Minister of Canada from 2003 to 2006.

Mr. Martin graduated in honours philosophy and history from St. Michael's College at the University of Toronto and is a graduate of the University of Toronto Law School. He was called to the Ontario Bar in 1966. Before entering public life, he was Chairman and Chief Executive Officer of The CSL Group Inc, which operates the world's largest fleet of self-unloading vessels and offshore transshippers.

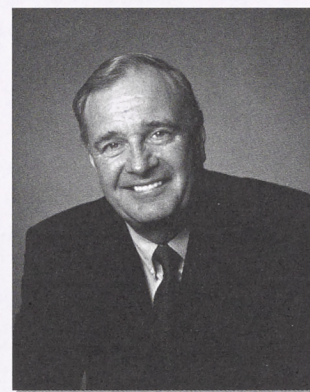

Mr. Martin was the Minister of Finance from 1993 to 2002, during which time he recorded five consecutive budget surpluses and restored the financial integrity of the Canadian Pension Plan. He also strengthened the regulations governing Canada's financial institutions with the result that Canada is now viewed as an international model for sound financial regulation.

During his tenure as Prime Minister, Mr. Martin's achievements included signing agreements with the provinces and territories to establish a national early learning and child care program and creating a new financial deal for Canada's municipalities. He set in place a ten-year, forty-one billion dollar plan to improve health care and reduce wait times. Under Mr. Martin's leadership in November 2005, the Canadian Government reached an historic consensus with Canada's provinces, territories, First Nations, Métis and Inuit leaders that would eliminate the gaps between Aboriginal and non-Aboriginal Canadians in the areas of health, education, housing and economic opportunity. This agreement became known as the Kelowna Accord. Further, he introduced the Civil Marriage Act that redefined the traditional definition of marriage to include same-sex couples.

Mr. Martin is currently the co-chair of a two hundred million dollar poverty and sustainable development fund for the ten-nation Congo Basin Rainforest. His co-chair until recently was the late Nobel Peace Prize laureate Wangari Maathai. He serves on the advisory council of the Coalition for Dialogue on Africa, an initiative sponsored by the African Union, the United Nations Economic Commission for Africa and the African Development Bank that deals with critical pan-African issues. He is also a member of the International Monetary Fund's Western Hemisphere Regional Advisory Group.

Closer to home, Mr. Martin is responsible for two initiatives. The Martin Aboriginal Education Initiative seeks to reduce the high school dropout rate of Canada's Aboriginal youth. The Capital for Aboriginal Prosperity and Entrepreneurship Fund, which he founded with his son David, helps establish and grow successful Aboriginal businesses both on and off-reserve.

A remarkable leader, Mr. Martin's commitment to public service reflects an inspiring vision of a strong, responsible, compassionate and internationally engaged Canada.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to the Rt. Honourable Paul Martin, P.C.

Ex Libris Printing Plate of Prime Minister Sir Wilfred Laurier. [1897].

*This handsome copper printing plate was created approximately a year after Wilfred Laurier (1841–1919) became the seventh Prime Minister of Canada in 1896. It was used to print bookplates with Laurier's coat of arms for the books in his personal library. Canadian bookbinder Alexander J. McGuckin was recently commissioned to create a special presentation box for the plate. After careful inspection, McGuckin noticed that the three leaves motif appears twice on Laurier's coat of arms, so he decided to create a three leaves leather onlay for the box, which he covered in full red goatskin and encased in a leather slipcase. Laurier's bookplate seemed an obvious choice to honour Paul Martin on this special occasion. Indeed, in *Hell or High Water: My Life in and Out of Politics*, Martin describes himself as "a fiscal conservative," but explains, "I have always coupled that to a belief that sound finances are the underpinning, the way to pay for the social Liberalism I also believe in and that I inherited from my father. This brand of Liberalism begins with Laurier – a deep respect for individual freedom and a belief that the state has the responsibility to open up the social, educational, and economic opportunities that will enable the poor to achieve that freedom" (19).*

Honorary Degree Recipient

CONGRATULATIONS

Mary Simon

Mary Simon is the President of Inuit Tapiriit Kanatami (ITK), the national organization representing Inuit from Nunavut, Nunavik in Northern Quebec, Nunatsiavut in Labrador and the Inuvialuit region of the Northwest Territories.

Ms. Simon was born in Kangisualujjuaq, Quebec, on Nunavik's Ungava Coast. She has devoted her life to achieving social justice for Inuit nationally and internationally, with a particular focus on children and youth, as well as the preservation of the Inuit language. In the environmental, economic and political arenas, she has been a leading advocate for Inuit cooperation.

She began her career in the early 1970s as a producer and announcer with CBC Northern Service. After a series of executive positions with the Northern Quebec Inuit Association and Inuit Tapirisat of Canada (now ITK), Ms. Simon was elected First Vice-President and, subsequently, President of the NQIA's successor, Makivik Corporation, the organization responsible for implementing the James Bay and Northern Quebec Agreement, the first comprehensive Inuit land claims agreement in Canada.

Ms. Simon was one of the senior negotiators during the Canadian Constitutional discussions of the early 1980s, which led to the recognition of Aboriginal rights in the Constitution Act in 1982. She went on to serve as President of the Executive Council of the Inuit Circumpolar Conference (ICC, now Inuit Circumpolar Council), the international body representing Inuit from Canada, Greenland, Alaska and Russia.

From 1994 to 2003, Ms. Simon was Ambassador for Circumpolar Affairs, becoming the first Inuk to hold an ambassadorial position. She was the principal architect of Canada's northern policy. Concurrently during her circumpolar position, she was the Canadian Ambassador to Denmark and Chair of the Joint Public Advisory Committee of NAFTA's Commission on Environmental Cooperation. She served as a councillor for the International Council for Conflict Resolution with the Carter Center, an American human rights organization. She was also the founding Chairperson of the Arctic Children and Youth Foundation.

An Officer of the Order of Canada, Ms. Simon has received the National Order of Quebec, the Gold Order of Greenland, the National Aboriginal Achievement Award, the Gold Medal of the Royal Canadian Geographical Society and the Symons Medal. Inducted into the International Women's Forum Hall of Fame, she is a Fellow of the Arctic Institute of North America and the Royal Canadian Geographical Society.

An inspiring global leader, Mary Simon has made exemplary contributions to Canadian political life and indigenous and northern affairs.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Ms. Mary Simon:

Barry Lopez. *Arctic Dreams: Imagination and Desire in a Northern Landscape*.

New York: Scribner's, 1986.

This is a signed first edition of an award-winning book which celebrates the spirit and the beauty of the far north in profoundly poetic language. Barry Lopez speaks of the "the serene arctic light" which inhabits "the land like breath, like breathing." He tells us that, "This is a land where airplanes track icebergs the size of Cleveland and polar bears fly down out of the stars." In a powerful and moving passage, he explains the deep sense of reverence which moved him to (literally) bow down before a nesting arctic bird. Lopez asks us to believe that "it is possible to live wisely on the land, and to live well," and he asks readers to explore a variety of cultural perspectives as we contemplate "the long human struggle, mental and physical, to come to terms with the Far North" and the baffling ways that this landscape manages "to transcend whatever we would make of it."

Congratulations Graduates

Honorary Degree Recipient

CONGRATULATIONS

James Jude Orbinski

James Orbinski is a globally recognized humanitarian practitioner and advocate, as well as a leading scholar and scientist in global health.

He received his MD degree from McMaster University in 1990 and held a Medical Research Council of Canada fellowship to study paediatric HIV in Sub-Saharan Africa. He completed a Masters degree in international relations at the University of Toronto in 1998.

After extensive field experience with Médecins Sans Frontières / Doctors Without Borders (MSF), Dr. Orbinski was elected MSF's international president from 1998 to 2001. He launched its Access to Essential Medicines Campaign in 1999, and in that same year accepted the Nobel Peace Prize awarded to MSF for its pioneering approach to medical humanitarianism, and most especially for its approach to witnessing.

Dr. Orbinski worked as MSF's Head of Mission in Goma, Zaire in 1996-97 during the refugee crisis and in Kigali during the Rwandan genocide of 1994. He was MSF's medical co-coordinator in Jalalabad, Afghanistan in the winter of 1993 and in Baidoa, Somalia during the civil war and famine of 1992-1993. For his leadership in Rwanda during the 1994 genocide, Dr. Orbinski was awarded the Meritorious Service Cross, Canada's highest civilian award.

In 2004, Dr. Orbinski became a research scientist at St. Michael's Hospital, and an associate professor of both medicine and political science at the University of Toronto. The world's leading medical journal, *The Lancet* recognized one of his co-authored papers on HIV/AIDS treatment adherence, as among the 20 most significant medical research papers in the world for 2006. He is also a Senior Fellow at the University of Toronto's Massey College and at the Munk School of Global Affairs.

In 2004, he co-founded Dignitas International to research and conduct community-based care, prevention and treatment for people living with HIV in the developing world. Dignitas has trained hundreds of healthcare staff and community-based care workers.

Dr. Orbinski's internationally acclaimed documentary film on medical humanitarianism, titled "Triage," was screened at over 30 international Film Festivals, including the 2008 Sundance Film Festival, and won the 2008 Amnesty International Gold Medal Award. His best-selling book, "An Imperfect Offering: Humanitarianism in the 21st Century," has been translated into five languages and won the 2009 Writer's Trust Shaunessy-Cohen Prize for best political writing in Canada.

An Officer of the Order of Canada, in 2011 he received the Walter S. Tarnopolsky Human Rights Award recognizing outstanding contributions to domestic and international human rights.

James Orbinski has made an extraordinary commitment to actively engaging and shaping the world in which we live.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr. James Jude Orbinski:

Ambrose Paré. ***The Works of that Famous Chirurgeon Ambrose Parey.*** Translated Out of Latin, and Compared with the French, by Th. Johnson: Together with Three Tractates Concerning the Veins, Arteries, and Nerves; Exemplified with Large Anatomical Figures. Translated Out of Adrianus Spigelius. London: Mary and John Clark, 1678.

This is an early English translation of a medical text by the French royal surgeon Ambrose Paré, who was a pioneering figure in the development of early surgical techniques and battlefield medicine. Appended to the text by Paré is a series of three anatomy tracts by the great Flemish physician Adrianus Spigelius. Interspersed throughout the book are approximately three hundred woodcut illustrations, largely of surgical tools and medical procedures.

Honorary Degree Recipient

CONGRATULATIONS

Holger Martin Petersen

Holger Petersen is a record producer, label owner, broadcaster, author, educator, festival producer, album collector – and serious music fan.

Born on Pellworm Island, Germany, Mr. Petersen immigrated to Canada with his parents in 1955. Mr. Petersen played drums with various Edmonton garage bands during his teenage years. After attending Bonnie Doon High School, he graduated from the two year Radio And Television Arts program at NAIT in 1971.

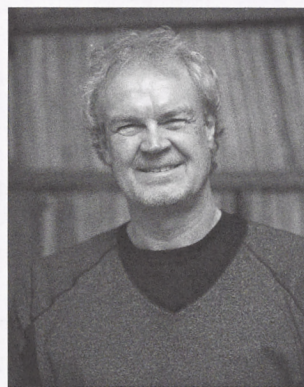

Since 1969, Mr. Petersen has hosted Natch'l Blues on CKUA, Canada's longest running blues program. He also hosts Saturday Night Blues on CBC Radio One and Two, now in its 25th year. In 1975, he co-founded Stony Plain Records, Canada's best know 'Roots and Blues' record company with Alvin Jahns. The label has won eleven Juno Awards and has been nominated for six Grammy's. Stony Plain artists include Ian Tyson, Corb Lund, Maria Muldaur, David Wilcox, Long John Baldry, Jeff Healey, Duke Robillard, Big Dave McLean, Rory Block, Ronnie Earl, Tim Hus and many others.

Mr. Petersen is also a founder, past board chair and past artistic director of the Edmonton Folk Music Festival. He was a founder and vice-president of Summerfest, the Alberta Recording Industry Association and a member of various Canada Council music juries and board member of several Canadian music industry associations.

Awards for Stony Plain Records include Canadian Country Music Association (CCMA) Awards for Publishing Company of the Year 1992, Record Label of the Year 1991, '95, '96, '97, '98, '99 & 2000, '01, '02 and several Alberta Recording Industry Association Awards and Western Canadian Music Industry Awards.

Mr. Petersen's personal awards include Music Industry Person of the Year in 1989 and the Blues With A Feeling Award presented by the Toronto Blues Society in 1986. He was inducted into the City of Edmonton Cultural Hall of Fame in 1992 and named Record Company Person of the Year by the CCMA in 2001. A member of the Order of Canada, he was also named 'Best Public Broadcaster' by the Blues Foundation in Memphis in 2009, the first time this award was presented to someone outside of the United States. His first book, *Talking Music: Blues Radio and Roots Music*, was published in 2011 by Insomniac Press.

Widely respected in the music publishing and recording industry, Holger Petersen is a creative force and an influential voice in the wide-ranging conversation that is Canadian culture.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Mr. Holger Martin Petersen:

Langston Hughes. Ask Your Mama: 12 Moods for Jazz. New York: Alfred A. Knopf, 1961.

Langston Hughes was a true original. His poetry is so deeply influenced by African American music, so "bursting with sound and rhythm," that it is frequently characterized as blues and jazz on a page. It is poetry to be read aloud, to be inhabited and savoured. And for those who don't "get it," he has included liner notes at the back of the book "for the poetically unhep." Dedicated to Louis Armstrong, "the greatest horn blower of them all," this first edition was designed to celebrate the magical connection between music and words.

Congratulations Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point.

Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Doctors' hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and

matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.
